

Plan your GyroStim Space

Measure your room and sketch a scaled down layout on the floor plan template:

- 1 square = 1 foot

Sketch in:

- Room doors and door swing
- Any architectural features
- Location of 110V & 220V outlets
- Windows and light switches

Explore location options for GyroStim in your room:

- Cut out and place the round GyroStim template on your sketched room to find the best location for the GyroStim
- Sketch your desired GyroStim door swing - right or left swing
